

# TECHNOLOGY IN EDUCATION

**Technology in Education** course aims to equip educators with the knowledge and skills to effectively integrate technology into their teaching practices. You will be able to explore a variety of EdTech tools and platforms, including learning management systems, digital content creation tools, and online collaboration platforms. You will gain the confidence and knowledge needed to leverage technology effectively to enhance your teaching and empower your students to become successful digital learners.

## TOPICS INCLUDED :

- Introduction to EdTech Tools in Language Teaching & Learning
- Using Apps for Teaching; Google Classroom, Zoom and Microsoft Teams
- Design technology-integrated lesson plans using the right tools.
- Using technology for formative and summative assessment; polls, quizzes, surveys, etc.
- LMS in EdTech: Learning Management Systems Powered Education

## COURSE STRUCTURE :

The course is offered in **10 hours** or **5 days** (2 hours a day). Participants will receive a Certificate of Participation upon successful completion of the course.

## LEARNING OUTCOME :

- Confidently identify and utilize various educational technology tools to support diverse learning objectives in your classroom.
- Design engaging and effective lessons that leverage technology's strengths.
- Incorporate effective assessment strategies with technology to gauge student progress formatively and summatively.

## WHO SHOULD ATTEND?

This course is designed for university students who are looking for part-time teaching jobs, teachers and anyone who wants to learn the latest technological integrations in education.
